2. Claims 4-11 are allowed.

Examiner's comment/Drawings

3. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawing filed on 9/27/2001 is informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

REASON FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance: the cited prior arts taken alone or in combination fail to disclose, in combination with other claimed limitations, an interface memory area that stores an interface program used by said controller when accessing by an access routine particular to said sensor; a configuration manager that carries out initialization of said signal processing part according to said interface program in response to an initialization request from said controller as recited in independent claim 4.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
